Concerned with the number of deaths in a short duration of time, the Commission directed for an inspection by its team of officials on the conditions in Tihar Jail and in particular the deaths which had occurred. The four member team which visited Tihar Jail submitted their report on 31.7.2007. The Commission had made certain observations in respect of postmortem examination and the lack of trust between doctors and police officers in that regard. The team recommended a study for ascertaining as to whether or not criminal justice system was subverted.
